Appliance Installation

3.2 hard wiring installation

WARNING

- Turn off the appliance completely and let cool before servicing. Only a qualified service person should service and repair this electric appliance.

HARD WIRING CONNECTION

If it is necessary to hard wire this appliance, a qualified electrician must remove the cord connection, and wire the appliance directly to the household wiring. The wire and power supply breaker must rated for 120V minimum 15 amps.

This appliance must be electrically connected and grounded in accordance with local codes, if hard wired. In the absence of local codes, use the current CSA C22.1 CANADIAN ELECTRICAL CODE in Canada or the current ANSI/NFPA 70 NATIONAL ELECTRICAL CODE in the United States.

note:

There are 6 wires from the appliance junction box: 1 green (G), 1 white (N), 1 blue (N1), 1 gray (N2), 1 black (L1), and 1 red (L2).

Product information provided is not complete and is subject to change without notice. Please consult the installation manual for the most up to date installation information.
